Successfully completed a 30-day Internship Training in Android App Development from 01.04.2023 under the guidance of Mr. Athul Mohan (Sr. Technical Associate), demonstrating hard work, dedication, and commitment to learning and development in the field

PROJECTS

UberForce

2024

Developed a next-generation unified platform for emergency services, enabling users to request **police, ambulance, or fire services** with one click. Integrated **real-time GPS tracking** to share user location instantly, reducing response times. Features an **autonomous fire detection system** using connected smoke sensors to detect hazards and escalate alerts automatically if users fail to respond. UberForce enhances emergency response through centralized requests, intelligent automation, and faster service delivery.

Student Online Voting System

2023

Developed a web-based platform for conducting elections and surveys online. The system includes two user levels: **Administrator** (managing user registration and election setup) and **Voter** (secure login, authentication, and voting). Users register via an online form, with details validated against the database to ensure security. Built with **HTML, CSS, JavaScript, and PHP/Python**, with **MySQL** for database management.

SKILLS

Programming Languages — Python, C, Java, HTML, CSS, MySQL

Soft Skills — Problem-solving, Communication, Teamwork, Active Listening, Verbal Communication, Presentation Skills

ORGANISATIONS

College Union
Chairman
Represented the student body in meetings with college administration, improving communication and addressing concerns effectively.
